

Senior Quality Auditor / GMP Auditor

SQA Services is a leading Quality Assurance and Supply Chain consultancy firm. SQA manages Supplier Audit and Supplier Development programs for customers in many industries including Pharmaceutical, Medical Device, Automotive, Aerospace, and Electronics manufacturing. Clients leverage SQA's network of Quality Professionals in more than 50 countries as an extension of their own Supplier Quality teams.

Job Title: Senior Quality Auditor / GMP Auditor

Description and Requirements:

Auditor will be responsible for performing Quality System and GMP compliance Audits of Suppliers to the Pharmaceutical or Cosmetics manufacturing industries. The overall goal of SQA's Supplier Audit programs is to mitigate risk across our customers' supply chains. Supplier Audits typically last one, two, or three days on-site not including audit report generation.

The right candidate must be familiar with pharmaceutical or related manufacturing processes and be thoroughly familiar with GMP/cGMP regulations (e.g. FDA cGMPs, ICH, IPEC, etc...). The auditor must have strong QMS/GMP Auditing experience having conducted many Supplier or External audits throughout his or her career. Lead Auditor Certification is desired.

The Quality Auditor must have strong English communication skills, both written and verbal. Auditor will work directly with SQA Services headquarters personnel in Los Angeles, USA, but can be located anywhere in the world.

This is a contract position with SQA Services. SQA Auditors conduct activities as per his or her availability, geographic location, and qualifications/skill-set.

SQA pays on a per-audit or per-activity basis. This position requires travel to various supplier locations. All travel and expenses are covered by SQA with approval.
